Third International Conference on Sustainable Construction Materials & Technologies – Kyoto Summer 2013

Third International Conference on Sustainable Construction Materials and Technologies (SCMT3) has now been finalized for August 18 – 22, 2013, Kyoto, Japan. Kyoto is the old capital of Japan. It is about 700 kilometers southwest, by car, from the nuclear power plant in Fukushima. The deadline for sending abstracts, 200-300 words, for topics related to the theme of this conference is June, 2012

For information, click here: [Third International Conference on Sustainable Construction Materials & Technologies](#)

Coasts, Marine Structures and Breakwaters –
Edinburgh Fall 2013

From sea to shore – meeting the challenges of the sea

17–20 September 2013, Edinburgh, UK

MEMBER NEWS/NOUVELLES DES MEMBRES

CSCE received the following note recently from Sarah Wells of the Transportation

Association of Canada;

Project Launched: Development of new edition of TAC's Geometric Design Guide

I am very pleased to report the launch of the project to develop a new edition of TAC's *Geometric Design Guide for Canadian Roads*. With funding committed by the federal government, as well as every provincial, territorial and municipal government represented on the Chief Engineers' Council, and additional funding provided by the Region of Waterloo and the Canadian Society for Civil Engineering, the important work of updating this foundational document can begin.

Energy Management Systems Accreditation Program

For organizations looking to increase their energy efficiency, reduce costs and improve energy performance—and for certification bodies wanting to help their clients do so—the [Standards Council of Canada](#) (SCC) now offers a solution.

Le [Conseil canadien des normes](#) (CCN) offre une solution aux organisations souhaitant accroître leur efficacité énergétique, réduire leurs coûts et améliorer leur rendement énergétique, ainsi qu'aux organismes de certification qui veulent aider leurs clients à y parvenir.

MCGill-Queen's University Press is pleased to announce the publication of *This Great National Object: Building the Nineteenth-Century Welland Canals* by Roberta M. Styran and Robert R.

LEADERSHIP IN SUSTAINABLE INFRASTRUCTURE LEADERSHIP EN INFRASTRUCTURES DURABLES

Toronto's crumbling Gardiner: Bring on the engineering innovation
An article by Paul Gauvreau in The Globe and Mail published Friday, December 14, 2012.

New revelations of serious problems with Toronto's Gardiner Expressway add urgency to the debate over what should be done with this structure.
