

# CAMILLE A. DAGENAIS AWARD

## HYDROTECHNICAL DIVISION

### Terms of Reference

(last revised 1979)

#### Introduction

- This award, to be known as the Camille A. Dagenais Award, will be made to a member of CSCE who has, in the opinion of the Selection Committee, made an outstanding contribution to the field of hydrotechnical engineering in Canada. This contribution may be either in the area of development, design, education or practice.
- It is expected that there will be one such award made annually, however, there need not be an award made in a year in which, in the opinion of the Selection Committee, no suitable candidate is recommended.
- The award will consist of a CSCE certificate signed by the President of CSCE. The award will be presented by the President of CSCE or his or her designate at the Annual CSCE Awards Banquet.
- The candidate for the award will be chosen by the Honours and Fellowships Committee of CSCE, on the recommendation of the Selection Committee. The Dagenais Award Selection Committee will consist of at least four members recommended by the Executive Committee of the Hydrotechnical Division.

#### Candidate Selection Procedure

- Any member of CSCE may nominate a person for this award. In addition, the Selection Committee will normally seek advice and recommendations from regional and other committees of CSCE.
- Nominations for this award will be invited by an appropriate announcement, in Canadian Civil Engineer magazine or by electronic notice to the members.
- Nominations must include a concise statement outlining the merit of contributions made by the nominee and relating to these Terms of Reference of the award.
- The results of the selection procedure will be treated as confidential until an award is made.
